Style Safety Elegance

# Why choose Masterbuilt pools?

We are a 100% Australian owned and operated family run business

We have been in the swimming pool industry for over 30 years, with over 120 years combined experience

All our pools are manufactured with our own quality assurance systems

Our pools are delivered direct to site by our custom built trucks and trailers

We supply our pools to a global market

We proudly offer a lifetime structural warranty

We give you unlimited options and  
**total inspiration**

Choosing a pool from Masterbuilt Pools gives you the freedom to create the backyard oasis of your dreams.  
With Masterbuilt Pools your options are unlimited. Create your own masterpiece.

# Our commitment to environmental responsibility

Masterbuilt Pools' vision is to be the most innovative and environmentally responsible swimming pool/composites manufacturing company in the world.

We have already started this by implementing processes in the following areas:

## Renewable sourcing

In 2024, proudly partnering with Allnex, we became the first swimming pool manufacturer in the world to utilise recycled PET resins in our pools. Every Masterbuilt pool saves up to 1,000 bottles from entering the environment.

## Energy efficiency

In 2022, we commissioned our state-of-the-art manufacturing facility in NSW. Climate controlled and designed with a 110kW solar farm. During daylight hours, at times, we generate 100% of our energy demands whilst exporting excess energy back into the grid.

## Emissions reduction

In 2023, we implemented an odour control system that uses a natural plant based product which is able to neutralise (not mask) the Volatile Organic Compound emissions we produce by up to 98%.

symbolises our pledge to environmental sustainability

Recycle, Re-use, Reduce

## Safer materials

We are committed to the substitution of potentially harmful chemicals to safer, more environmentally sustainable products.

## Circular economy

We diligently explore options to limit the consumption of resources, keep them in use as long as possible, and eventually recover and recycle them at the end of service life.

Every Masterbuilt pool saves up to 1,000 plastic bottles from entering the environment.

Mediterranean

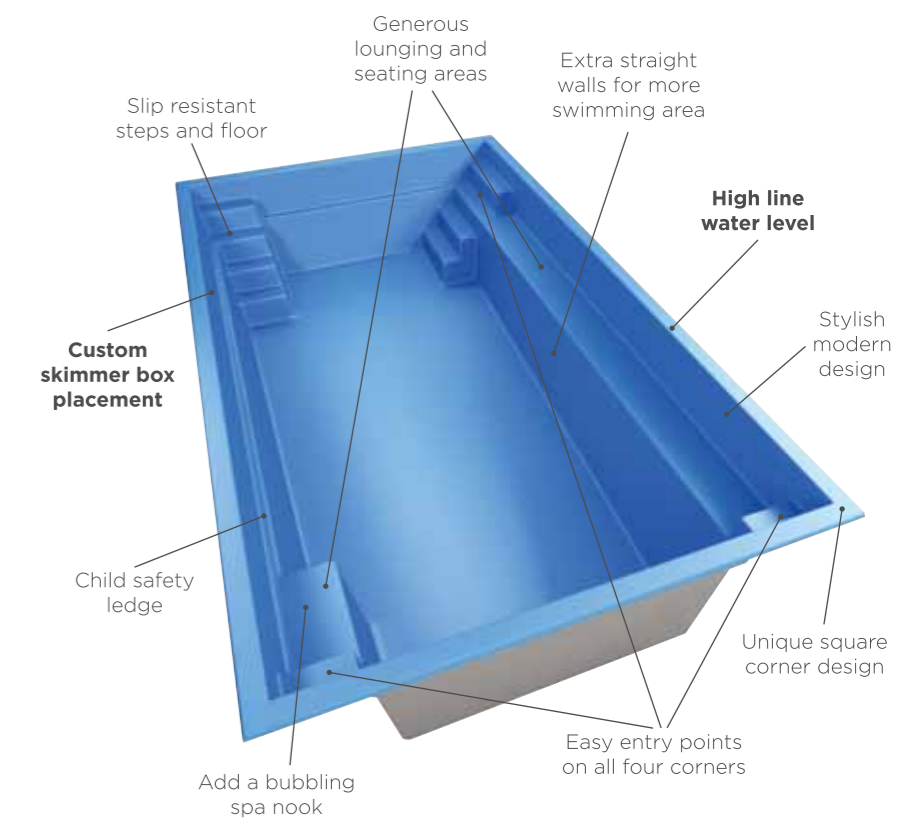

# De Luxe

## + Lap Pool De Luxe

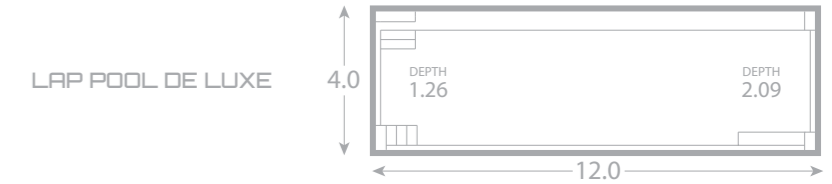

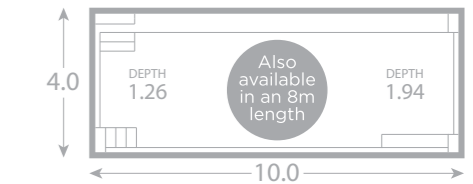

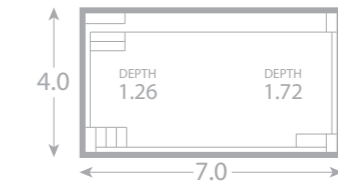

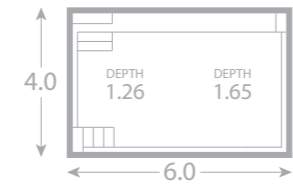

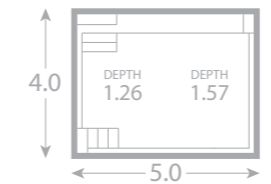

The architecturally designed De Luxe range really has the lot! It is the perfect family pool to suit backyards in all configurations.

Designed with entry points from four corners, a high level water line and custom skimmer box placement, it allows free access from any side of the pool area, allows for creativeness in your landscape design and access to retreat areas. The large, full length bench is designed to make relaxing and socialising with family and friends easy. The ultra large free swim area allows you to swim laps and kick off from each end of the pool.

Sharp, crisp & modern, the De Luxe is very popular.

# Our modern and premium pool range

As one of Australia's leading composite pool manufacturers and designers, we are committed to providing modern functional designed pools to improve the lifestyle of all Australian families.

The manufacturing methods we use have evolved over the last 35 years. We only use quality raw materials from large reputable suppliers who are respected world wide. We do not use any fillers or cost saving materials, just 100% raw product. The Allnex system has been trouble-free for over 20 years.

Being a small niche manufacturer, our experience allows us to give consistency and attention to detail that a mega manufacturer cannot. Our mission is to provide you with a stylish, functional, well-built product that will last you a lifetime.

*That's the promise from our family to yours.*

# Standard Aquaguard® Natural Range

# Next Gen 3D Colours

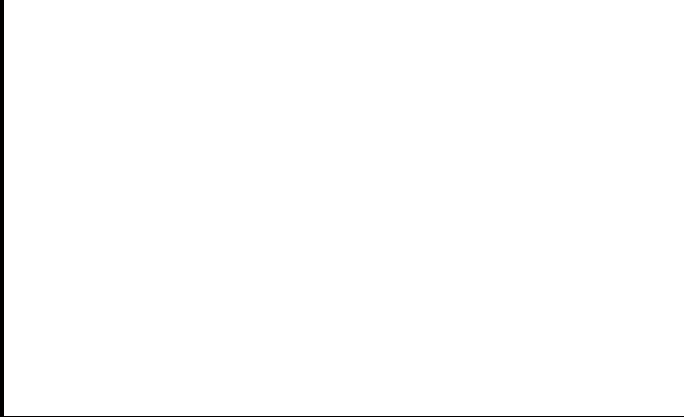

Our designer inspired finishes have been individually formulated with various size and colour pigments to create a truly natural experience in different shades of light. The colours represent the ocean water in our favourite mood-setting locations from all around the world. Our finishes throw colours that are unique and undoubtedly impressive.

Colours shown are indicative only and should not be used for final selection. Products ordered should be chosen from actual samples current at the time of order and are subject to availability. Whilst every effort is made to provide samples, brochures and displays consistent with products delivered to site, they should be viewed as a guide only.
